University of Toronto
ECO333—Urban Economics
Third Midterm Test
2021

There are a total of 11 points.

1. (5 points) List five reasons Ed Glaeser argues that there is nothing greener than blacktop? Each reason should have a one or two sentence explanation.

2. (6 points) What is the argument for why cities might be too big?

3. Many cities have strict restrictions on how high buildings can be. Imagine a city government that currently restricts all buildings to have just a single
