MAT102 Assignment 1 Due January 21

Instructions

Please submit solutions to ***all*** of the questions listed below ***on Crowdmark***. Your assignment is due before 11.59 pm on **January 21**. You should receive an email from Crowdmark by January 16 containing the assignment questions and a link you can use to submit your solutions. You will need to submit a separate file for each question, so it is easiest to write up your solution to each question on its own paper.

Your solutions should be neat and legible (preferably in black or blue ink). The written assignment is worth 10 points, and we will grade two or three questions. Students must submit the answers of all the questions.

Technical issues will not be accepted as a reason for failing to submit on time, so please leave yourself ample time to submit your homework before the deadline.

At the last page (page 9) there is a list of problems from the course note (textbook) for more practice. You do not need to submit those ones.
