MAT136: Calculus II
Summer 2025
Practice Test 1

Instructions

- **Write clearly** and concisely in a linear fashion.
- **Explain all your steps**. Unless stated otherwise, show all of your work.
- **No aids are allowed** other than a non-programmable calculator. The use of a computer/tablet should be limited to reading the questions/formula sheet, writing your answers if you decide to use a tablet for doing so, and submitting the questions.
- You may use pen/pencil and paper or you may write your answers using a tablet. In either case, your answers must be hand written.
- Once you submit your answers, double-check that your uploaded file is the one you intended to upload and that it is legible.
- You may upload your work multiple times before the deadline. To ensure a smooth submission process, it is recommended that you complete a sample upload well in advance to familiarize yourself with the procedure.
- When to contact me:
  - If you are feeling ill and unable to finish the exam by the deadline, please let me know as soon as possible and no later than 48 hours after the due date of the test.
