General Information.

- Midterm 2 will take place from 5-7pm on Friday, November 15th, unless you have arranged to take an alternate sitting.
- The location of the sitting you are registered for will be released **as a Quercus announcement** early next week (the week of November 11th).
- The following pages contains a practice exam. While the problems are different than what will appear on the actual exam, the instructions and format are identical.
- Please keep in mind that reviewing this practice exam **is not enough** to prepare you for the exam. The practice exam is only meant to give you an example of the style and format of the assessment.
- Solutions to the practice exam will be posted by the end of the day on Wednesday, November 13th.

Review Session Schedule.

Several of our course TAs will be holding review sessions on Tuesday, Wednesday, and Thursday before the exam. **Please come to the sessions with questions you would like the TA to discus** (for example, questions from the practice exam, past Webwork problems, questions from the tutorial problem list, or anything else!)
