MAT232H F21 Final Examination Questions

December 2021

1 Question No.1 - (0 points)

You *CANNOT* work with other students (which includes using Piazza or any group chat, such as Discord or WhatsApp, to connect with students during the time of the term test or final exam) and *CANNOT* use external sources for answers (Google, Symbolab, Chegg, WolframAlpha, hire or get someone else to write your test, etc.) unless instructed to do so for the term test or final exam. It has to be your own work; otherwise, it is an academic integrity offence which is taken seriously.
BUT, you *CAN* use your lecture notes, textbook, tutorial activity sheets, desmos.com, and a basic calculator.
