# SOC100 Practice Final Exam- ANSWER KEY

***Instructions:*** *For all questions, choose the BEST answer. On the real final exam, please remember that all your answers must be filled in on the scantron sheet that will be provided to you. This is not an attempt to tell you what is on the exam. It is the same format as the real final (2 matching that are four question each, 10 True-False, and 57 multiple choice for 75 questions total), and it's provided to allow you to get a feel for what the final will be like, how I ask questions for in-person tests, and to provide some practice as well.*

1. Supply and demand is the only force that sets prices in a completely free market or, in other words, an economy guided completely by laissez-faire economics.
    a. True
    b. False

2. What concept refers to when women work full-time and then come home and work more childcare, cooking, and organizational hours than men?
    a. Stack Patriarchy
    b. Double Duty
    c. Second Shift
